Theistic Evolution
Taught by Freddy Langford
The Fellowship Hall

Did God create the heavens, the earth, diverse forms of life, and man in a manner consistent with Reformed biblical interpretation? Or, did God use evolution and evolutionary mechanisms as described by Darwin and others to bring about the diversity of life we observe today? Is Scripture authoritative and clear on this issue and if not where should we look for clarity? Does Scripture interpret itself or should we look to “science” to understand what the Bible says about the origin of life, including man, on earth? In this class we will examine what the Scripture says about God’s revelation of Himself in the things He has made and His revelation by spoken and written word with a critique of theistic evolution from a theological, philosophical and scientific perspective.

Hellenbroek’s Catechism (Part 1)
Taught by Jeff McDonald & Jared Morrison
The Chapel

Abraham Hellenbroek (1658-1731), was a minister in the Reformed churches in the Netherlands, and was best known for his writings including “A Specimen of Divine Truths” – a catechism written to help believers in Christ better profess their faith in Him. Catechisms from the Reformed Church can serve to help us better articulate what we believe & why we believe it, to understand the flow & unity of God’s Word, and to equip us to pass along our faith to the next generation. This particular catechism is divided along the six major doctrines of the Reformed faith: God, man, Christ, salvation, the church, and last things. Class participants are encouraged to get a copy of “A Specimen of Divine Truths” by contacting Vicky McWilliams (lambiepie232@gmail.com; \$5 per copy).

Inquirers Class (New Members Orientation Class)

This thirteen week class will introduce newcomers and prospective members to the Biblical doctrines and practices adhered to by Covenant Presbyterian Church. The Reformation Solas, the Five Points of Calvinism, Reformed worship, the Sacraments, church government, membership vows, and more will be addressed in this course recommended for membership at Covenant.
